1 to 6 countries

PATIENTLIVE® | 18 CONDITIONS AVAILABLE

Ankylosing spondylitis | Arterial hypertension | Asthma | Bipolar disorder | COPD | Crohn's disease | Depression | Diabetes (Type 1) | Diabetes (Type 2) | Epilepsy | Fibromyalgia | Lupus | Multiple sclerosis | NASH | Obesity | Osteoarthritis | Psoriasis | Rheumatoid arthritis

PATIENTLIVE® ONCOLOGY | 18 CONDITIONS AVAILABLE

Bladder cancer | Breast cancer | Colorectal cancer | Esophageal cancer | Hodgkin lymphoma | Non-Hodgkin lymphoma | Liver cancer | Lung cancer | Mouth cancer | Multiple myeloma | Ovarian cancer | Pancreatic cancer | Prostate cancer | Renal cancer | Skin cancer | Throat cancer | Thyroid cancer | Tongue cancer

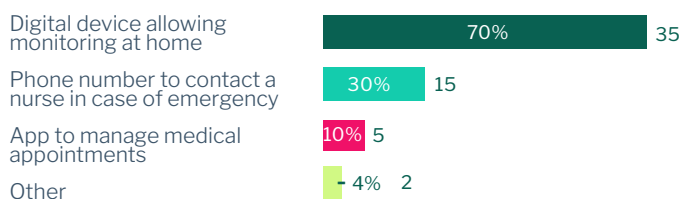

PatientLive® allows you to collect patients' insights in real time, in order to help you make better decisions and support your strategic decisions and actions with real-life patient data.

- Understand patient experience: disease/treatment burden, impact on quality of life
- Measure patient's perception of your products, devices and services
- Identify patient's unmet needs and test concepts of services
- Test and validate your future communications campaigns: messages, visuals, videos...
- Develop patient-centric materials and services for a future clinical trial to facilitate patient recruitment and retention
- Optimize the design of your real-world patient studies and clinical trials

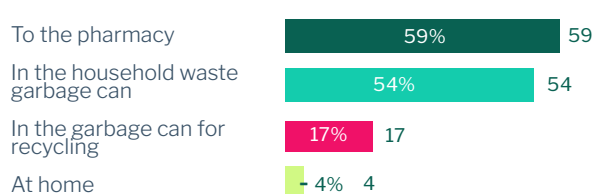

And for any other question relative to your patient issues... to get a quick patient feedback.
